PROFESSIONAL SUMMARY

Aspiring Software Developer skilled in Python, Java, Django, Django REST Framework, React, PostgreSQL, RESTful APIs, Linux, and networking fundamentals. Implies knowledge of Data Structures, Algorithms, OOP, SQL, and web development. Eager to build scalable applications, solve complex problems, and contribute to software development teams in an entry-level role.

SKILLS

: Programming Languages: Python, Java, SQL | **Frameworks & Libraries:** Django, Django REST Framework, React | **Databases:** PostgreSQL, MySQL | **Web Development:** HTML5, CSS3, React, RESTful APIs, API Integration | **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS) | **Tools:** Git, GitHub, Postman, VS Code | **Operating Systems:** Linux, Ubuntu, Windows | **Networking:** TCP/IP, HTTP/HTTPS, DNS, Client-Server Architecture

PROFESSIONAL EXPERIENCE

Python Programming Intern

Oasis Infobyte

- Developed a Python keylogger to record **1,000+ keystroke events** and built a packet analyzer to inspect **500+ network packets**.
- Applied TCP/IP, socket programming, file handling, and automation concepts to create **2 cybersecurity-focused Python tools**

Cybersecurity Research Intern

Atlysbridge Solutions

- Researched **5+ social engineering attacks** and prepared reports on patch management, vulnerability risks, and cybersecurity best practices.
- Conducted **2 technical research projects** focused on security awareness and vulnerability management

PROJECTS

E-Commerce Project

- Built a Django/React e-commerce platform with optimized REST APIs, reducing **page load times by 35%**.
- Integrated **secure payment** gateways and **authentication**, maintaining a 99.9% uptime during peak traffic testing.
- Streamlined backend endpoints and database indexing, boosting **search query performance by 40%**.

SIEM System for Log Analysis

- Built a Python-based SIEM system to process **10,000+ security log entries**, detecting anomalies using Isolation Forest with ~85% accuracy
- Simulated SOC workflows by handling **50+ security incidents**, improving alert prioritization and response efficiency

Web Application Vulnerability Scanner

- Developed a multi-threaded Python scanner to test **100+ URLs** for SQL Injection and XSS vulnerabilities.
- Improved scanning efficiency by **2x** and reduced false positives by **30%** using parallel processing and response validation.

EDUCATION

B.Tech, Computer Science & Engineering

BBDNIIT, Lucknow

CGPA: 7.2 / 10 | Relevant Coursework: Data Structures, OS, Computer Networks, Cybersecurity & Ethical Hacking, DBMS

2023 – Present

Senior Secondary (Class XII)

Lucknow Public Schools & Colleges

Percentage: 82%

2022
